HOUE

We are driven by affordable luxury as a philosophy, by choosing the right materials and solutions. We draw from a proud heritage of Danish design and craftsmanship with mass appeal. HOUE offers both an outdoor and indoor collection, always meeting our high standards in terms of design, price and quality.

**HOUE IS A DANISH DESIGN HOUSE FOUNDED IN 2007.
WE COMBINE GREAT COMFORT AND DESIGN IN OUR WORK.
WE ALWAYS PUT A LOT OF EFFORT INTO OUR
PRODUCT DEVELOPMENT STRIVING TO MEET
A HIGH STANDARD.**

CLICK COLLECTION

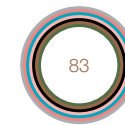

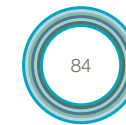

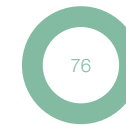

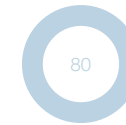

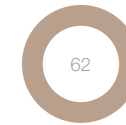

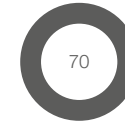

**OUTDOOR CHAIRS WITH EXCELLENT
CUSHION FREE COMFORT.
DESIGNED BY HENRIK PEDERSEN.**

CLICK is a collection of outdoor furniture made in intelligent designed plastic lamellas combined with powder coated metal and beautiful bamboo parts. The components are carefully composed to give the lamellas exactly the right strength and resilience to provide excellent cushion free comfort.

The CLICK concept is offering a variety of color options. The lamellas come in many different colors and can be clicked on and off to modify the look of the chair simply by changing – or mixing the different lamella colors.

Danish Designer Henrik Pedersen has invested a great deal of effort in shaping the chairs to make the lamellas follow the structure of the spine. The result of this work is great comfort.

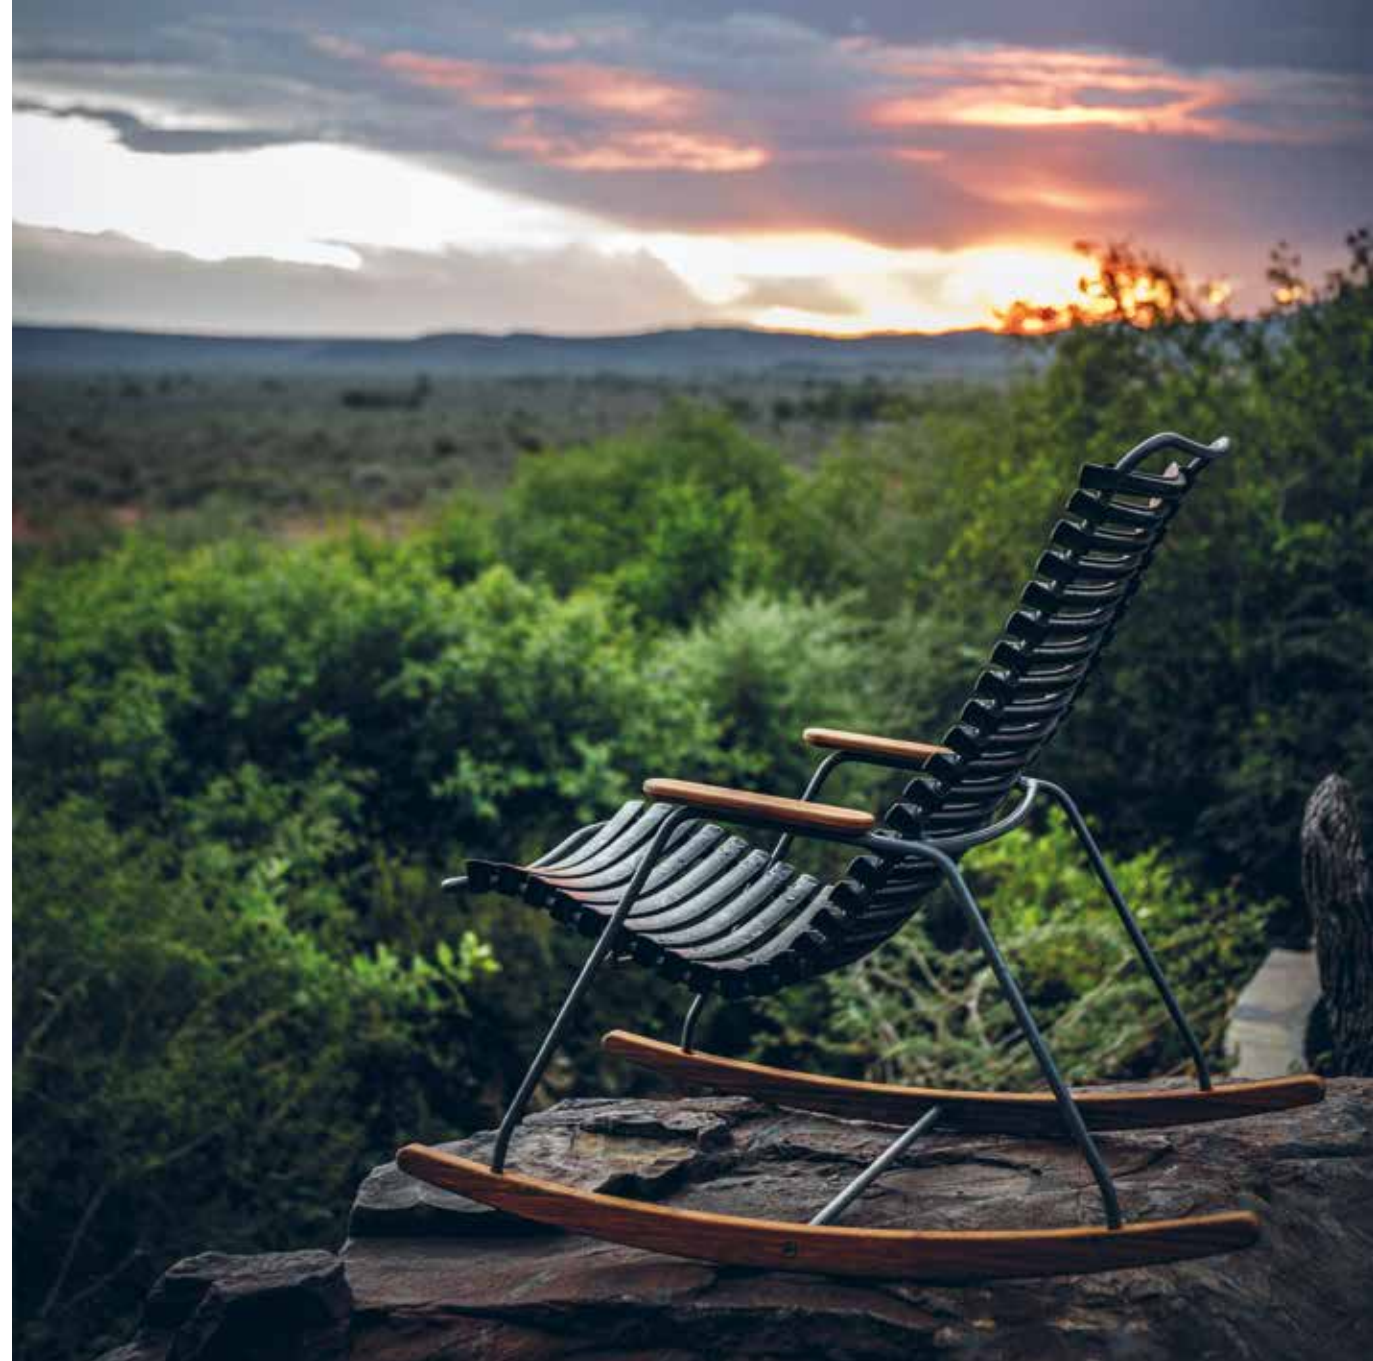

The CLICK collection consists of dining chairs, sunbeds, rocking chair, lounge chair, position chair and a foot rest.

BAMBOO IS THE LARGEST MEMBER OF THE GRASS FAMILY

**THE GROWTH OF BAMBOO IS VERY FAST – THE SPECIES
THAT WE USE FOR FURNITURE GROW MORE THAN ONE
METER WITHIN 24 HOURS! BAMBOO RE-PLANTS ITSELF.
NEW BAMBOO SHOOTS WILL SPREAD FROM THE ROOTS.**

Bamboo releases more oxygen than any other plants, actually 35% more than ordinary woods. This is due to the fast growth. Bamboo also recycles large amounts of CO₂. Bamboo can absorb 30% CO₂ and release more than 35% oxygen, so choosing bamboo as material means contributing positively to CO₂ evolution. In addition to being, a very fast-growing plant, bamboo is a very strong and hard material and stronger than traditional woods. Bamboo is very stable and is affected only very little by humidity.

BAMBOO CARE The bamboo on HOUE CLICK collection is treated with a special impregnation from the factory, which is drawn into the bamboo. To keep the bamboo nice, it is necessary to treat it on a regularly base with oil suitable for bamboo. We recommend you to, oil the bamboo parts before taking the furniture into use, and again after approx. 4 weeks, then as needed (3 – 4 times a year).
