

REVOLVER BAR STOOL

PRODUCT FACT SHEET

REVOLVER BAR STOOL

DESIGN BY LEON RANSMEIER, 2013

HAY's Revolver Bar Stool is positioned on a bearing mechanism that enables the seat and footrest to rotate 360 degrees. The slim, slightly dished seat features curved edges for additional comfort, while the footrest provides support and the weighty base creates total stability. The rotating feature, while altering appearance, also lends a sense of the play to this functional design.

HIGHLIGHTS

- Available in 2 heights: H65 cm and H76 cm.
- Seat and foot ring rotates 360 degrees.
- Its versatile presence makes it suitable for a wide range of public and residential environments.
- Qualified for contract use.

DIMENSIONS

REVOLVER BAR STOOL LOW
HEIGHT 65 CM | 25.50"
DIAMETER BASE 44,5 CM | 17.50"

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
